Three great options to inspire you to create beauty in your landscape!

Professional Dream Design

Bring your "wish list" into Bordine's and work alongside one of our designers. By providing an accurate mortgage survey of your property, photos and some additional measurements, we will create a scaled landscape plan indicating all plants for easy reference. You will be part of your project every step of the way and the scaled drawing is yours to keep.

- All consultations are scheduled and completed by appointment only.
- Bordine's no longer offers complete landscape installation or plant removal. We do, however, continue to offer Tree Plantings and Delivery Services. (contact our Tree & Shrub department for details).

Check list for your Professional Dream Design Appointment:

- ☐ A Mortgage Survey or measurements of your home are required
- ☐ Photographs showing different views of your home
- ☐ Which side of your house faces north...noting how the sun rises and sets around your home for sunlight conditions.
- ☐ Bring in a "Wish List" of plants that you like as well as a list of colors that appeal to you.

30-Minute Design Session

Do you need some guidance with your landscape? Bring in two to three copies of an 8x10 color picture of your landscape and one of our professionals will 'mock up' a design for you. Printing off a color printer at home is perfect for this session. It only takes 30 minutes and will give you the basics for success.
